Hello there, I'm Yar

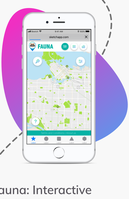
I'm a UX/UI designer.
I recently graduated from Langara college.

Follow Antey
to find my projects.

LeaL: SMB Loyalty App

This is my Capstone Project at Langara. I wore multiple hats during this project, such as UX Designer, Project Manager and Quality Tester.

View Project Page



Fauna: Interactive Wildlife Locator

This was a fun DataVis project where I took the role of the Lead Designer. As a team of 3 Designers and 2 Developers,

NaraWalk: Website Redesign

During my time at Langara I co-founded a full-service web-development agency "DeosTech" and this is one of our best projects.

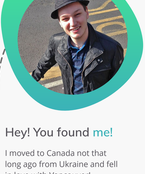
Design Studies

I have also made quite a few design studies and composition projects as the part of my journey learning design thinking and design tools.

View All Design Studies



Hey! You found me!

I moved to Canada not that long ago from Ukraine and fell in love with Vancouver!

In my spare time I play a lot of eSports, watch geeky internet shows and try to form a DnD group!

Reach out if you have a proposition or would like to hang out some time!
